Annotation & Note-taking Apps

AudioNote with Voice Recorder

 \$4.99	App Type: Note taking	
	Description: Tired thumbs? This app will prevent you from blistering your fingers by translating audio to text. This is great for keeping up with fast-talking lecturers, or group discussions where your note taking can't keep up with the speed of different speakers. This app is great for those who enjoy taking jot notes, as it allows you to record in-depth audio messages to supplement them. Stay organized with the feature of automatic indexing of meetings, classes, interviews, lectures and much more! To help keep up with your notes, texts and visuals become highlighted during playback for ultimate screen narration. This app allows you to share notes and audio files.

Diigo

 Free	App Type: Annotation	
	Description: Forget a lengthy – and costly – trip to the printer. You don't have to have a hard copy of web page to make mark-ups. With Diigo, you can annotate online web pages and documents, adding sticky notes, highlights, bookmarks and the works. You can save your online resources, as well as tag them and share research with friends and classmates. It's the small details that matter in this app, such as greater web space with the automatic hidden address bar, tabs on top feature, direct search from the context menu and much more!

Dragon Dictate

 Free	App Type: Text to speech	
	Description: <p>If note taking is not your strength, you need not worry. This voice-recognition app allows you to dictate what you want typed. This is perfect for on-the-go situations during which you are not at a desk but need to take down information, as it works hands free. This app greatly assists students in writing assignments and serves as an easy and efficient alternative to manually typing out assignments. Dragon Dictate comes with an editing feature that provides a list of suggested words to help you better articulate your notes.</p>

iAnnotate

 \$11.99	App Type: Annotation	
	Description: If you are about adding <i>funk</i> to your notes, this is one app designed to meet your creative needs! This app allows you to organize work and highlight, underline, and stamp (among other options!) to annotate documents in a way that is both creative and visually effective. It's about jazzing up your work and emphasizing various areas of a document. Not only can you spruce up traditional notes, you can share PDF, DOC, PowerPoint, and image files. iAnnotate also allows you to mark-up content in external files using built-in highlighting, typing, drawing, and multimedia (e.g. photos, video, and audio).

iReadWrite

 \$22.99	App Type: Annotation / Text-to-speech	
	Description: Are you an auditory learner? Do you find it easier to listen to text or instructions rather than reading something off a paper or screen? iReadWrite is the perfect app for people with a preference for audio. If you have dyslexia or dysgraphia, or if your first language is not English, you are a perfect fit for this app. This app features text-to-speech capability ,with active highlighting that reads aloud words and sentences as students type. This makes it ideal for proofreading assignments or on-the-go listening. Built-in word prediction, word checkers, text and picture dictionaries help make the typing process engaging and efficient!

Voice Dream Reader

 \$11.99	App Type: Text-to-speech	
	Description: Wouldn't it be a dream to have someone narrate all the text you come across? It is a dream – albeit, Voice Dream Reader! This all-encompassing virtual text-to-speech app reads aloud your PDFs, Word, PowerPoint, documents, e-books, and web pages! With 36 voices and 24 supported languages, as well as bookmarking capabilities, you can start or stop anywhere in your document or web page and resume reading at a later time. A built-in dictionary helps you learn new words, and accessibility features such as active highlighting, zoom, and auto-scroll makes reading course materials easier. Awkward sentence structure, grammatical errors and typos can be quickly spotted!

 Free	App Type: Translation	
	Description: Ever wanted to know how something reads in another language? How about being able to have a conversation with someone in an entirely different language? Well, this app is your one-stop solution for translation. You can translate text, listen to translations, and translate images that you have taken or imported, simply by pointing to your camera. But that's not all; translate vocally by speaking directly into your phone and translate a bilingual conversation as it occurs. How does this work? Well, Google Translate will translate what you and the other person are saying. Translate words into 90 different languages in real-time. Speak, take a picture, type, or handwrite words or phrases that you would like translated and the app will do the rest

Idea Flip (formerly Idea Sketch)

 Free	App Type: Mind mapping	
	Description: Take your ideas to another level with Idea Flip! Conceptualize your ideas using various fonts, shapes, visual diagrams, maps, etc., to form an ultimate mind map creation. You can switch between various forms of mapping and create an entirely different map each time. This is terrific for organizing step-by-step instructions, visually representing theories and processes, as well as essay and assignment planning – among other things! Save files as PDF, PNG, OPML and more. You can even create diagrams from word documents, allowing you to transform text to maps. If desired, you may even copy text from other apps, e-mails, documents, or web pages to have Idea Flip automatically generate mind maps.

 <p>\$3.49</p>	App Type: Time Management		
	Description: <p>Think of this as an online agenda 2.0! You can creatively and effectively construct reminders for yourself using a myriad of provided tools. This app allows you to keep and make track of your academic life and responsibilities. You can monitor your grades by tracking your grade point average and calculate this number using a GPA calculator. This is the ideal time management tool for students, as it allows you to create study schedules for each course, set assignment due dates, test dates, and colour coding for effective remembrance. Automatic reminders will also help you stay on track of your learning.</p>
